The Group has grown out of a small family business set up in Wolbrom in 1988. The continual growth and experienced staff of our company let us establish the Linter Group which since then has expanded its offer for further industries offering the most comprehensive solutions for partners at home and abroad.

The structure of the Group together with the extensive and complementary offer let us to operate in the following fields:

- design engineering,
- production,
- contracting and provision of specialised services,
- general investment implementation.

KEY INDUSTRIES FOR OUR BUSINESS ACTIVITY:

**ROCK RAW
MATERIALS
INDUSTRY**

**CEMENT
INDUSTRY**

**MINING AND
EXPLOITATION
INDUSTRY**

**POWER
INDUSTRY**

**CHEMICAL
INDUSTRY**

**METALLURGICAL
INDUSTRY**

BASIC INFORMATION ON THE GROUP:

EMPLOYMENT
IN THE GROUP:
ca. **2400**
PERSONS

OWN
ENGINEERING OFFICE
– MORE THAN **100**
SIGNIFICANT PROJECTS
ALREADY
IMPLEMENTED

**LONG-STANDING
COOPERATION**
WITH LOCAL
AND FOREIGN PARTNERS
– MORE THAN **1000**
CUSTOMERS
AND CONTACTORS

MORE THAN
28 YEARS
OF EXPERIENCE
ON THE LOCAL AND
FOREIGN MARKET

TURNOVER
AT THE LEVEL OF
40
MLN EUR
PER YEAR

PRODUCTION

PRODUCTION OF TRANSPORTATION SYSTEMS

THE LINTER GROUP OFFER COMPRISE THE FOLLOWING CONVEYORS:

- belt conveyors,
- bucket elevators,
- scraper conveyors,
- auger conveyors,
- drag conveyors,
- gravity conveyors.

PRODUCTION OF COMPONENTS FOR CONVEYORS:

- charging units for easy material loading,
- belt tension and storage stations,
- supporting structures for conveyors,
- driving, directional and return drums,
- idlers.

We offer standard components made available in line with our catalogue offer as well as specifically designed according to customer's requirements.

PRODUCTION OF EQUIPMENT AND OTHER UNITS FOR ENRICHMENT OF MINERALS AND PROCESSING PLANTS

LINTER S.A. has extensive experience in the development of complex technologies and implementation of production facilities for mechanical coal processing plants as well as systems, machines and equipment applied in these technologies such as:

- dense medium separators,
- gravity jigs,
- settlers,
- dense media preparation and regeneration process lines,
- technologically-advanced filter presses.

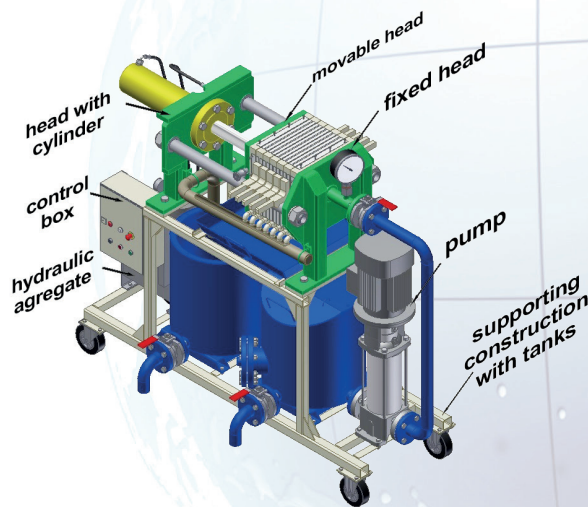

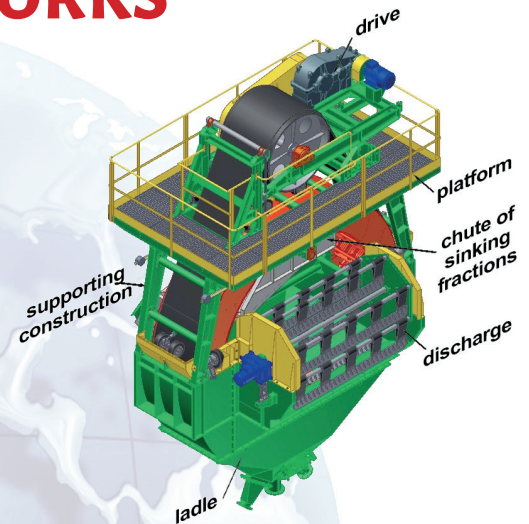

PRODUCTION OF STEEL CONSTRUCTIONS AND COOPERATION SERVICES

- supporting structures, conveyor routes,
- elements of exhaust-gas discharge and desulphurisation systems,
- platforms, railings, supports,
- silos, tanks and many other elements,
- machining works.

DESIGN ENGINEERING WORKS

THE LINTER BPL OFFICE HAS 20 YEARS EXPERIENCE IN THE DEVELOPMENT OF PROJECTS OF:

- conveyor-based transport systems,
- mechanical mineral processing plants,
- machinery and equipment applied in these technologies.

THE OFFICE OFFERS:

- preliminary projects,
- tender projects,
- executive and workshop projects,
- development of technical documentation on machines and equipment,
- preparation of documentation for certification and admittance.

SERVICES

1. SPECIALISED SERVICES FOR THE MINING INDUSTRY

LINTER MINING SP. Z O.O. AND PRG LINTER S.A. OFFER THE FOLLOWING SERVICES:

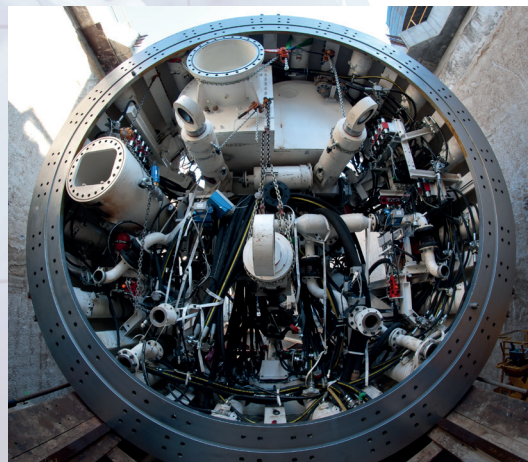

- drilling of underground galleries (according to the methods agreed with the Client, e.g. using road head shearers or explosives),
- reconstruction of galleries,
- reinforcement of galleries and mine walls - shotcreting, anchoring and using adhesives,
- installation and maintenance of underground machines and equipment,
- disassembly of equipment and infrastructure.

2. SPECIALISED CONSTRUCTION, ENGINEERING AND TUNNELLING WORKS

THE SCOPE OF WORKS PERFORMED BY PRI METRO IS AS FOLLOWS:

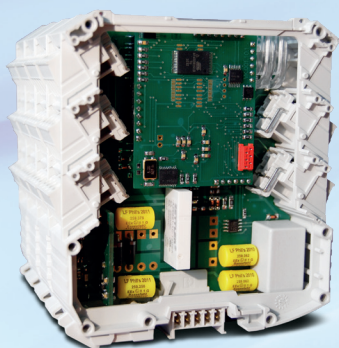

- construction and modernisation of sewerage systems implemented both in trenchless (micro-tunnelling, relining, etc.) and open-trench technologies,
- construction of retention reservoirs,
- construction and modernisation of sewage treatment plants,
- construction of TMB-drilled tunnels,
- construction of bridges,
- power installations and grids,
- large reinforced-concrete press pits,
- automated industrial and technological installations,
- telecommunication works,
- railway and tramway works,
- road works.

3. AUTOMATION OF INDUSTRIAL PROCESSES

VOLEN S.A. SPECIALISES IN SERVICES IN THE FOLLOWING AREAS:

- energy automation,
- industrial automation,
- visualisation and control systems,
- electro-energy installations.

QUALITY SYSTEMS

THE LINTER GROUP MEETS ALL THE REQUIREMENTS ON DESIGN ENGINEERING, PRODUCTION, INSTALLATION AND SERVICING AS SPECIFIED BY THE ISO 9001 QUALITY MANAGEMENT SYSTEM CERTIFICATION.

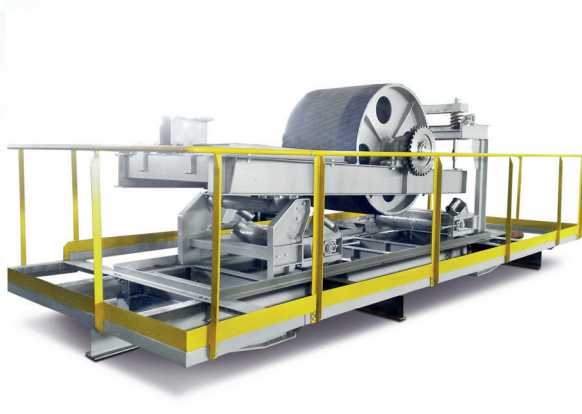

INTERNATIONAL BUSINESS OF THE GROUP

Our gradual growth lets us to expand our business activities on the foreign markets. We have numerous partners in European countries and beyond Europe. Our key markets include: Turkey, Morocco, Bosnia, Germany, Austria, France, Hungary, Estonia, Russia.

OUR KEY ADVANTAGES:

- experienced specialists,
- long-standing presence on the market proved by gradual business growth,
- complementary offer of the Group's companies,
- own engineering office and facilities,
- complete author's supervision (from prefabrication through assembly, start-up phase and staff training),
- experience in the implementation of projects on the foreign markets,
- own companies - branches of the Group beyond Poland.
